EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
Dr. A.P.J. Abdul Kalam Technical University (AKTU)
CGPA: 7.45/10 (Till Semester VI)

(Graduation: 2027)

SKILLS

Languages: C++, C, JavaScript, TypeScript, Python, React
Frameworks: React Native, Expo Router, Node.js, Express.js
Database: MSSQL, MongoDB
Tools: Git, GitHub, Postman
UI/UX: Figma (Wireframing & UI Design)
Cloud: AWS (Solutions Architecture – Forage Job Simulation, 2025)
Core: DSA, OOP, DBMS, OS, Distributed Systems (Basic) | **Learning:** Linux/CLI, CI-CD

PROJECTS

AcademyHub – Full Stack Mobile Application [↗](#)

Developed a full-stack coaching management application using React Native, Expo Router, TypeScript, Node.js, Express.js, and Microsoft SQL Server. Built secure authentication, REST APIs, and role-based modules for Admin, Teacher, Parent, and Student, using React Hooks-based state management, while integrating frontend screens with backend services to deliver a scalable and maintainable application architecture.

Offline Communication System [↗](#)

Built a network-independent emergency messaging system using LoRa SX1278 and ESP32, enabling peer-to-peer communication over 2+ km without internet connectivity. Implemented communication between distributed LoRa-enabled devices and designed the companion mobile application interface in Figma, focusing on usability and emergency communication workflows. Filed an Indian patent (2025) for the system and won over ₹40,000 across three national hackathons.

AI-based Personal Assistant (NovaX) [↗](#)

Built a voice-activated desktop assistant integrating OpenAI GPT API and SpeechRecognition for natural language command processing. Automated file management, web search, and application control tasks, reducing manual task execution time by approximately 60%. Developed the interface using Python and Tkinter for real-time voice-based interaction.

EXPERIENCE

FULL STACK APP DEVELOPER INTERN | Eccura Technologies Pvt. Ltd. | Jun 2026 – Jul 2026

Contributed to the development of a production-ready full-stack mobile application by implementing backend services, database integration, and role-based functionality. Worked collaboratively in an Agile environment to build scalable, reliable, and maintainable software solutions.

Co-Founder & Chief Operating Officer (COO) | Tallow&Care pvt. Ltd. | Jan 2025 – Present

Co-founded a sustainable personal care and animal care brand, managing operations, product development, and market expansion across domestic and export segments.

ACHIEVEMENTS

- Filed an Indian Patent for an Offline LoRa Communication System (2025).
- Completed AWS Solutions Architecture Job Simulation (Forage), designing scalable cloud architectures using Elastic Beanstalk, RDS, Auto Scaling & Load Balancing (2025).
- 1st Prize – National Tech Fest, SRMS Bareilly, for an Offline Communication System.
- Best Innovation Team – Galgotias International Hackathon (₹10,000 Prize).
- 2nd Prize – Sustain-a-thon, Sharda University (₹30,000 Prize).
- 3rd Prize – SRMS Hackathon 4.0 (AI & Intelligent Systems) for an AI-powered CPR Patch.
